# PRESS RELEASE

Dr. Anirban Maitra of MD Anderson Cancer Center joins the scientific advisory board of PancreaSolve, Inc.

**Cambridge, November 2, 2015:** World renowned pancreatic cancer researcher Dr. Anirban Maitra joins the scientific advisory board of PancreaSolve.

"We are excited to have a leading expert on pancreatic cancer such as Dr. Anirban Maitra on our scientific advisory board," said Dr. Shiva Ayyadurai, Chief Executive Officer of PancreaSolve.

Dr. Anirban Maitra is a pre-eminent pancreatic cancer expert and is the first co-director and scientific director of MD Anderson's Sheikh Ahmed Bin Zayed Al Nahyan Center for Pancreatic Cancer Research. Dr. Maitra is passionate about improving patients' survival by discovering and developing ways to detect and treat pancreatic cancer. He serves as deputy division head for academic science in Pathology and Laboratory Medicine and as a professor in Pathology and Translational Molecular Pathology.

PancreaSolve is headquartered in Cambridge, MA. PancreaSolve uses CytoSolve's revolutionary technology for in silico mechanistic modeling is accelerating discovery and development of single and multi-combination therapeutics.

CytoSolve is headquartered in Cambridge, MA. CytoSolve's revolutionary technology for in silico mechanistic modeling is accelerating discovery and development of single and multi-combination therapeutics.

The University of Texas MD Anderson Cancer Center is one of the world's most respected centers devoted exclusively to cancer patient care, research, education and prevention. It is a premier cancer center in the world, based on the excellence in research-driven patient care and cutting-edge science.
